

We were brought together by a single idea—the need to make a change in the direction of our country. We share a belief that these are the most important elections of our lifetime. We are fighting for government, at the federal, state and local levels, that is open, rational, just and progressive.

We hope our willingness to take our energy to so many parts of the country will help inspire our fellow citizens to take a hard look at what is at stake in these elections, at the federal, state and local levels, and to get involved in trying to move our country in a truly compassionate and humane direction.

Most importantly, **we** wish to communicate our concerns to our fellow citizens and join with them in the effort to change the direction of our government towards one that will make our country as great as it can be. **We urge you to vote for change on November 2nd.**

Why Vote for Change?

In the past four years:

- One million jobs lost and counting, the worst record since the Great Depression
- Over 1,000 soldiers dead and 7,000 maimed and wounded in Iraq — no weapons of mass destruction, no link between Saddam and 9/11, no plan for getting out
- \$200 billion for Iraq with no end in sight; less money for our local schools, health care and jobs
- 45 million Americans without health insurance — 5 million more in the last four years
- Tax breaks for millionaires didn't create jobs — everyone else lives from paycheck to paycheck
- Biggest federal and state budget deficits in history — if you're young, you'll pay for decades
- Right wing attempts to limit a woman's right to choose and John Ashcroft's assault on our privacy and freedom
- Dirtier air, dirtier water, polluters writing environmental laws, no action on global warming
- Halliburton no bid contracts: Why don't *they* have to play by the rules?
- Veterans losing health care, soldiers' tours of duty extended involuntarily

What You Can Do

- Vote for Change on November 2
- Volunteer
